Poster List

P01:  
Fixation potential of cesium by reservoir sediment – impacts of water temperatures, pH, and EC  
Alif Samsey, Jiefeng Li, Wenhan Li, Toshiyuki Kawaguchi, Fusheng Li, Japan

P02:  
Climate change and its impact on groundwater resources  
Khajuria Anupam and Kanae Shinjiro, Japan

P03:  
Relationship between sediment bed microbial community density and water quality in open channel receiving jokhasou effluent  
Denny Helard, Joni A. Fajri, Ahmad A. Setiyawan, Fusheng Li, Toshiro Yamada, Akihiro Horio, Ming Huang, Japan

P04:  
Micro nutrients in anaerobic digestion of acetate  
Gofetamang Ditalelo, United Kingdom

P05:  
Pollution of an iconic lake and attempted remedial measures over 12 years  
D.R.I.B. Werellagama, Amila Abeynayaka, K.B.S.N. Jinadasa, New Zealand

P06:  
Microbial fuel cells in biological waste treatment  
T. Meenambal, Jayakumar Divakaran, India

P07:  
The approach for improving the water quality in the sanaru lake  
Tatsuya Tobe, Toshinori Morikawa, Toshiharu Okada, Kouji Fukunaga, Taku Watanabe, Yoshihiko Wada, Japan

P08:  
Separation of oil-in-water emulsions by combination of micro-bubbles with normal-bubbles treatment  
Tuan Van Le, Tsuyoshi Imai, Takaya Higuchi, Koichi Yamamoto, Masahiko Sekine, Ryosuke Doi, Huy Thanh Vo, Wei Jie, Japan

P09:  
Uptake of heavy metal by Arabidopsis thaliana grown in contaminated tsunami sediment after the Great East Japan Earthquake: Interaction of steel slag and immobilization of heavy metals  
Marco Antonio LEON-ROMERO, Megumu FUJIBAYASHI, Chikako MARUO, Paula Cecilia SOTO-RIOS, Yoshio AIKAWA, Osamu NISHIMURA, Japan

P10:  
Reduction of the influence of secondary effluent by ozonation on aquatic organisms  
Chang-Beom PARK, Kouki MURAYAMA, Hiroyuki MANO, Tomokazu KITAMURA, Koya KOMORI, Mizuhiko MINAMIYAMA, Yutaka SUZUKI, Yasuhiro KATO, Michiko AOKI, Japan

P11:  
Sustainable groundwater policy in Japan  
Sayaka Hori, Japan

P12:  
The spatial distribution of fluoride, arsenic and hardness in well waters in Sri Lanka, and the relationship between the components and chronic kidney disease  
Ayuri Motoyama, Tomonori Kawakami, S.K. Weragoda, Yuka Serikawa, Japan

P13:  
Photocatalytic activity of cu-doped TiO2 microsphere synthesized using self-assembly method assisted by aerosol spray  
Ya Hsuan Liou, Chun Yen Huang, Yu Chieh Chou, Chin Jung Lin, Taiwan

P14:  
Preparation of magnetic adsorbent and its application on adsorption of copper ion  
Chiung-Fen Chang, Ying-Tzu Liu, Taiwan

P15:  
Water quality characteristics of drinking water sources in Southern China  
Yang Chunmei, Satoshi Takizawa, Shuili Yu, Hiroshi Sakai, Michio Murakami, Kumiko Oguma, Fangbo Zhao, Hee-Deung Park, Japan

P16:  
Comparison of natural lake and experimental microcosm for biomanipulation attempt  
H.Hayashi, K.Murakami, A.Inoue-Kohama, Japan
P17: Developing a new approach integrating ‘hardware’ and ‘software’ for sustainable water resources management – the case of Bali, Indonesia
Hironori HAMASAKI, Hisaaki KATO, Takao NAKAGIRI, Japan

P18: Mechanisms involved in accumulation of carbohydrate-like substances on the surface of polyvinylidene fluoride (PVDF) membrane
Hiroshi Yamamura, Katsuki Kimura, Yoshimasa Watanabe, Japan

P19: Simultaneous removal of plural pollutants in electronic industry wastewater by zero-valent iron
Hiroyuki YOSHINO, Yoshinori KAWASE, Japan

P20: Effect of boron in the formation of aerobic granule sludge
Shenghua Zhang, Xiaohu Zhang, Xin Yu, Huirong Lin, China

P21: Characterization and visualization of the drinking water biofilms matrix
Huirong Lin, Shenghua Zhang, Xin Yu, China

P22: Comparison of pressurized gas bubbles CO₂, N₂O, and N₂ on Escherichia coli disinfection
Huy Thanh Vo, Tsuyoshi Imai, Jantima Teeka, Tuan Van Le, Kanthima Phummala, Takaya Higuchi, Ariyo Kanno, Masahiko Sekine, Japan

P23: Combined constructed wetlands for wastewater treatment in small villages
Jareeya Yimrattanabovorn, Thailand

P24: Utilization of shale as adsorbent for nitrogen and phosphorus removal
Jareeya Yimrattanabovorn, Thailand

P25: Rudiments of water
John Kennedy Opoku, Gambia

P26: Removal of hydrogen sulfide using steelmaking slag
Keisuke OKADA, Tetsuya WATANABE, Tamiji YAMAMOTO, Kyung-Hoi KIM, Satoshi ASAOKA, Akio HAYASHI, Shinjiro Hayakawa, Kazuhiro Takeda, Yasuhiro MIYATA, Japan

P27: A comparison of enhanced natural organic matter removal and disinfection byproduct reduction by different ion-exchange resins
Kensuke Sakurai, Denis Shershenikhin, Jenny Banks, Peter Jarvis, Japan

P28: Development of simple toxicity assay for degradation products of pharmaceuticals
Makoto SEKINE, Masahiro TOKUMURA, Shigeki MASUNAGA, Japan

P29: Characterization and strontium ion removal property of calcium silicate adsorbent synthesized from inorganic wastes
Naoki Taruma, Hiroshi Nishioka, Masafumi Kobune, Japan

P30: Clogging reduction by influence of temperature in reaction kinetics of Lead using brown seaweed and reed as biobarriers
Paula Cecilia SOTO–RIOS, Kazunori NAKANO, Megumu FUJIBAYASHI, Chikako MARUO, Marco Antonio LEON-ROMERO, Yoshio AIKAWA, Osamu NISHIMURA, Japan

P31: Development of quantitative methods to detect Legionellae and comparison of typing analysis methods of Legionella pneumophila in environmental water samples
Po-Hsiang Huang, Bing-Mu Hsu, Yi-Chun Yangn, Tsung-Yu Shen, Po-Min Kao, Shu-Min Shen, and Kuan-Hao Huang, Taiwan

P32: Nutrients elution control from eutrophicated sediment using shell as regional unused resources
S. Agatsuma, K. Murakami, M. Gomyo Y. Amano, Japan

P33: River environment assessment using attached diatoms around lake Tega and lake Inba in Chiba prefecture
S. Ando, K. Murakami, M. Gomyo, Japan
P34: *Studies on treatment of urea-formaldehyde based wastewater using anaerobic baffled reactor (ABR): COD and formaldehyde removal*
Sawanya Laohaprapanona, Marcia Marques, William Hogland, Sweden

P35: *The effect of different ions in ultrasonic systems for different frequencies over Escherichia coli*
S. HERGUNVARIM, Ü.Y. YILDIZ, F.B. KAREL, A.S. KOPARAL, Turkey

P36: *PCR-based method and PFGE for typing and monitoring Salmonella in recreational water in Southern Taiwan*
Shau-Feng Tseng, Bing-Mu Hsu, Hsian-Yu Hsiao, Jung-Shen Chen, Po-Min Kao, Shu-Min Shen, Kuan-Hao Huang, Taiwan

P37: *Treatment of textile effluents containing phosphate and azo dye by zero-valent iron*
Shiori NAGOYA, Yoshinori KAWASE, Japan

P38: *Direct treatment of low-strength municipal sewage by a trickling filter system in Bangkok, Thailand*
Takashi Onodera, Wilasinee Yoochatchaval, Pathan Banjongproo, Haruhiko Sumino, Takashi Yamaguchi, Motoyuki Mizuochi, Kazuaki Syutsubo, Japan

P39: *Chiba prefectural waterworks bureau damage-repair and emergency action in relation to the east japan great earthquake*
Takeshi Hayashida, Japan

P40: *Characterization and cesium ion removal property of calcium silicate adsorbent synthesized from inorganic wastes*
Tatsuo Inoue, Hiroshi Nishioka, Masafumi Kobune, Japan

P41: *Research about radioactive materials in water treatment sludge*
Tatsushi Asakawa, Minako Tanaka, Japan

P42: *Evaluation and development of hylogenetic analysis by MLST of Salmonella spp. from surface water body*
Tsung-Yu Shen, Bing-Mu Hsu, Shou-Fen Tseng, Po-Min Kao, Kuan-Hao Huang, Shu-Min Shen, Jung-Sheng Chen, Taiwan

P43: *Decolorization of wastewater with ultrasonic methods*
Ü.Y. YILDIZ, S. HERGUNVARIM, F.B. KAREL, A.S. KOPARAL, Turkey

P44: *Enhanced photocatalytic activity of mesoporous fe-doped TiO2 microsphere under visible light illumination*
Chin Jung Lin, Li Chen Kao, Ya Hsuan Liou, Japan

P45: *Performances of immunomagnetic separation method for Salmonella in aquatic environment under various operation conditions*
Yi-Chung Yang, Bing-Mu Hsu, Hung-Jen Wang, Shih-Wei Huang, Kuan-Hao Huang, Po-Min Kao, Shu-Min Shen, Jung-Shen Chen, Japan

P46: *An experimental study about the effect of water quality on species and biomass of algae in lake Kasumigaura*
Yoshiyuki Shibayama, Natsuki Hisaoka, Mizuhiko Minamiyama, Japan

P47: *Influence of Ca and Mg concentrations and ph on phosphorus removal efficiency in iron electrolytic method*
Yosuke TABATA, Makoto KURACHI, Keiji TEZUKA, Japan

P48: *The comparison of urban river water quality and pollutant load between separate and combined sewer areas under the condition of rainy and sunny weather*
Young-Sik Ham, Hiromi Kobori, Japan
Practical use of a simple COD measurement through linking standard methods: a case study in Tsurumi River basin
Young-Sik Ham, Theerapon Phonkhum, Hiromi Kobori, Masahisa Takasago, Japan

Microfaunal community structure in an aerobic trickling filter system for sewage treatment
Miyaoka, Yuma, Hatamoto, Masashi, Onodera, Takashi, Syutubo, Kazuaki, Yamaguchi, Takashi, Japan

Land development modification impact on efficiency of stormwater treatment facility
Sheeraz Memon, Ma. Cristina Paule, Bum-Yeon Lee, Nadmitov Bulat, Chang-Hee Lee, South Korea

Effect of hydraulic retention times on effluent quality and disinfection in biological wastewater treatment with engineered iron-oxide nanoparticles
Sangchul Hwang, Diana Martinez, Priscilla Perez, Keila Pagan, Puerto Rico

Solar-powered engineered experimental drum filtration and disinfection for rural community water sustainability
Sangchul Hwang, Daniel Concepción, Margaret Hernandez, Puerto Rico

D305 PVC pipe locator with leak detecting function upto 500 meter range
Kenichi Watanabe, Japan

Influence of sludge condition on aeration demand in membrane bioreactor equipped with novel intensive air diffuser
Kenta Koshimizu, Japan

Biodegradability assessment of pulp and paper mill wastewater using electrocoagulation pre-treatment
R. Sharma, S. Kumar, C. Sharma, India
